

# THE **GOTO** BRAND FOR INDUSTRIAL MARKING AND IDENTIFICATION SOLUTIONS

# WHY CHOOSE **IDIGO** ?

IDIGO TEAM LIVE BY OUR MOTTO:

High quality  
Products & Services

Compliance to  
Industry Standards

Fully  
customizable

Shortest lead-time  
in the industry

## **HIGH QUALITY PRODUCTS**

We offer superior service and the highest quality labeling products for our customers' facilities around the region.

Up to 6 years warranty in harsh environments, Extended service temperature range, strong chemical resistance, seawaterability and long life. UL certified and low-flammability series.

All IDIGO products are manufactured in and serviced from Singapore We offer site survey, project packaging and installation services.

## **COMPLIANCE TO INDUSTRY STANDARDS**

Our products comply to a wide range of industry standards:

- Offshore: ASME A13.1, ISO 14726, NBR6493
- Dangerous Goods: GHS, SS 586
- Safety Signs: ISO 3864, SS 508

And more...

## **FULLY CUSTOMIZABLE**

Legend, design, size, colors fulfilling your specific environment, industry, regional and end-user rules, practices and specifications, including full compliance with ASME/ISO standards.

In-house proprietary software to speed-up generation of hundreds of designs in seconds.

Color matching options (RAL, British Standard and Pantone)

## **SHORTEST LEAD-TIME IN THE INDUSTRY**

Our Pipe markers, Valve and Accident Prevention Tags, Safety Signs & Labels come at a very competitive price and the shortest lead-time in the industry thanks to our Digital Manufacturing "on-demand" in our state-of-the-art facilities in Singapore.

## IDIGO OFFERING OVERVIEW

### EXTENSIVE RANGE OF IDENTIFICATION PRODUCTS & RELATED SERVICES

- ✓ From pipe markers and valve tags to safety tags, safety signs and labels.
- ✓ Clearly convey equipments and piping systems content, usage, security notices etc.
- ✓ Perfect for harsh environments: offshore, chemical, plants, production facilities, logistics and warehouses

#### PIPE MARKERS

Adequate pipe marking allows quick identification of pipes content and direction using relevant color code, legends, symbols and QR-code.

All IDIGO pipe markers are self-securing and overlaminated to protect their color and legends.

Available as wrap-around, half-wrap or single labels for pipes up to 36" diameter in a choice of materials matching project requirements.

#### TAGS

Idigo proposes a wide range of tags to cover all marking and identification needs: Valve Tags, Safety Tags, Engraved Plastic Tags and Stainless steel tags.

Complement to our Pipe markers, these tags allow quick identification of the equipments, assets valves etc. and can be customized to include specific information such as tag ID/no, "Normally Open/Normally Close", "Under Maintenance", QR-Code etc.

#### SAFETY SIGNS & LABELS

Idigo Safety Signs and Labels are to be used to indicate dangerous and/or restricted area, entry conditions, machinery risks, etc.

Available as indoor labels, outdoor stickers or rigid signs, either in plastic or metal (aluminium), with luminescent "Glow in the Dark" or reflective properties options.

#### COMPLEMENTARY IN-HOUSE SERVICES

Let us help you complete your project in time and on specs:

- ✓ Custom Design & Color Matching
- ✓ Packaging and Installation Services

## IDIGO PIPE MARKERS

MARKERS FOR EVERY APPLICATION

### MARKER SERIES

<a href="#">ID-P300</a>	Self-extinguishing economical vinyl markers with matt finish, recommended for indoor application when low-flammability is mandatory.
<a href="#">ID-P350</a>	Extended temperature range vinyl markers with long outdoor durability and ease of installation on flat and single curved surfaces. Recommended for harsh environment with strong direct sunlight and chemical exposure, provide 4 years outdoor expected life.
<a href="#">ID-P550</a>	High-grade, low halogen, UL 969, self-securing polyester markers allowing versatile mounting as overlap or full adhesive on a wide range of pipe diameters. Recommended when higher temperature range (-50°C to +150°C) is required or when use of vinyl material is prohibited. 6 years outdoor expected life.

### MARKERS COMPLIANCE

Plixo Pipe marking products are designed to comply with the rules, practices and regulations of the various industries they are used in.

Industry	Supported Standards
Marine & Offshore / Oil & Gas	ASME 13.1-2007, ISO 14726:2008, NBR 6493 [Brazil]
Chemical & Pharmaceutical Plants	GHS Rev 5, SS586
Logistics & Warehousing	ISO 3864, SS 508
Logistics & Warehousing	ISO 3864, SS 508

### MARKERS DESIGN

While regulated by standards, most of the projects require specific legends, P&ID line number, etc. in one or more languages, not to mention specific encoding e.g. QR-Code for source and destination, maximum pressure and temperature etc.

Based on your requirements, we will apply our knowledge of the different, often ambiguous and conflicting international standards, to propose pipe markers dimensions, legends and designs that fit your needs.

# IDIGO TAGS

## A TAG FOR EACH EQUIPMENT

### USAGE

Assets Tagging, Valve Tags, Accident Prevention.

Perfect complement to our Pipe markers, BenMark valve tags allow quick identification of the valve or equipment and can be customized to include specific information in addition to tag ID/no, ex: "Normally Open/Normally Close" ..

### TAG SERIES

<p><a href="#">ID-T230</a></p> 	<p><b>Overprinted Acrylic Tags</b>          Custom shape and size, single or double-sided, unlimited colours and artwork.          Recommended when wide range of color and texts is required.</p>
<p><a href="#">ID-T400</a></p> 	<p><b>Laser Engraved ABS Tags</b>          Custom shape and size, single sided.          Legends engraved on laserable dual colour ABS plastic, with the following colour combinations.          For medium term outdoor usage.</p>
<p><a href="#">ID-T800</a></p> 	<p><b>Stainless steel Tags</b>          Black laser-marked legends on SS304/SS316.          Available in various sizes.          When maximum durability is required.</p>
<p><a href="#">ID-A100</a></p>	<p><b>Polypropylene Accident Prevention Tags (APT)</b>          For provisional use, economical, versatile usage*</p>
<p><a href="#">ID-A550</a></p>	<p><b>Polyester Accident Prevention Tags (APT)</b>          For harsh outdoor environments, long-lasting, highly visible, versatile usage*</p>

### TAG DIMENSIONS & SHAPES

Each tag (except for APT that are self-adhesive) includes at least one hole for installation using your choice of nylon ties, stainless steel "S" hooks or beaded chain.

Each tags include three lines of text or your own custom artwork (logo, symbols etc.)

## SAFETY SIGNS & LABELS

### CREATE & MAINTAIN A SAFE WORKPLACE

#### USAGE & DESIGN

Perfect to indicate dangerous and/or restricted area, entry conditions, machinery risks, etc.

Available as indoor labels, outdoor stickers or rigid signs.

We also provide luminescent green stickers for evacuation signs and routes etc. and reflective materials for traffic/private roads use.

Design can be chosen from our extended range of signs or customized according to customer provided artwork, either in vector form or as high-resolution pictures.

#### SIGNS

##### Series

Serie	Material	Thickness	Mount	Usage
<b>ID-S230</b>	Acrylic	3mm	Reverse	Better appearance, both indoor and outdoor but subject to thermal expansion
<b>ID-S650</b>	Aluminium	2mm	Front	outdoor permanent use

##### Dimensions

Safety signs come with a maximum size of 4' x 8'

# IDIGO IN-HOUSE SERVICES

## THE HELPING HAND YOU EXPECT!

### CUSTOM DESIGNS

While we have a range of “standard” markers and valve tags for each supported standard, most of our customers opt for custom design, **at no extra costs**.

This allows them to add identification information and fit to their specific project requirements [languages, line ID, etc.].

For such custom design, our proprietary marker generator software allows us to quickly submit Final Artwork for approval before proceeding for manufacturing.

In addition, on request, we will rush actual samples for your assessment.

*NEW: Our Design Software now support QR-Code generation*

### COLOR COMPLIANCE / COLOR MATCHING

Our regular colors are compliant with standards requirements and we support RAL and British Standard colors.

Alternatively, we provide in-house service to match provided color samples or RAL/BS/Pantone code using industrial spectrophotometer.

### PROJECT PACKAGING SERVICE

Plixo markers come as individual pieces, already cut to your pipe dimensions, while valve tags come with chosen attachments, thus simplifying installation.

Plixo marking products are packed according to your instructions [by part number, system, installation location, etc.], and are grouped in cartons with detailed labels of their content.

*NEW: NOW provided at no extra costs, save you time and enable efficient warehousing, thus reducing your total costs.*

### INSTALLATION SERVICES

Should you require installation, our approved installers will be pleased to conduct on-site assessment and define with you exact scope of work.
