

INSTALLATION GUIDE

ID-PM Curved-Shaped Carrier Plate
for Marine, Oil & Gas and Industrial Applications

MOUNT WITH CABLE TIES

PRE-INSTALLATION

IDIGO Plate Marker

Cable Ties

Grip Gloves

Installation Tool

Garbage Bags

INSTALLATION

- 1** Determine location of marker (refer to project specific compliance rules) and the flow and direction of the pipe before mounting plate.

- 2** Join required number of cable ties together based on total circumference of the pipe to reduce wastage.

- 3** Slot the connected cable ties through the slots of the plate.

- 4** Mount the plate onto the pipe and ensure that the text is parallel to the pipe.

- 5** Secure the plate using the cable ties and snip off excess lengths using the installation tool.

GENERAL

- Wear safety gloves during installation.
- Please collect all trash and dispose accordingly.
